Art Unit: 2839

Claim 16 objected to, line 54 "cord" should be -- plug --.

Claims 1 and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Carmo.

Carmo figs. 2-7 discloses a system with a first plug formed by parts 14 and 150, with outer threads 158, second plug 12 and a retainer 100 threadably engaged to 150 and having engagement part 34 for engaging the cord of second plug 12, the retainer 100 being threadably moved by rotation of 150 to secure the plugs. Claim 16 steps met by use of such device in manner discussed by patentee. For claim 16, parts 14, 150 together are read as a first plug assembly to be threadably coupled to 100 which is to be ~~threadably~~ ^{threadably} moved to secure plugs 12, 14.

Claims 2 and 16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Carmo.

For claim 2, first plug 14 is female. Obvious to provide the male plug as the one enclosed in 150. This would be normal usage that would provide no new result. Claim 16 included in case issues arise as to order of disclosed steps.

Claims 9-15 are allowed.

Claims 3-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
